

AA   qq7745xjvqc4rp9-8000.app.github.dev 

```
{"message": "There should be a template here"}
```

1. Create the python env inside fastapi-
webapp

2. Install requirements

3. Run the FastAPI application

you should see this on the browser 🙌

Complex applications

Complex applications

1. Create the python env inside fastapi-webapp
2. Install requirements
3. Run the FastAPI application

you should see this on the browser 🙏
