

FastAPI

```
from fastapi import APIRouter
```

```
webapp_router = APIRouter()
```

```
@webapp_router.get("/home")
```

```
def home():
```

```
    . . .
```

```
from fastapi import FastAPI
```

```
from auth.routes import auth_router
```

```
from webapp.routes import webapp_router
```

```
app = FastAPI()
```

```
app.include_router(webapp_router)
```

```
app.include_router(auth_router)
```
