- Mount the static file folder at `main.py`

```python
from fastapi.staticfiles import import StaticFiles

app.mount(
    "/static",
    StaticFiles(directory="static"),
    name="static"
)
```

Static Files

- Mount the static file folder at `main.py`

main.py

```python
from fastapi.staticfiles import import StaticFiles

app.mount(
    "/static",
    StaticFiles(directory="static"),
    name="static"
)
```
